LeeYi's practice version website

A screenshot of a file explorer interface showing a project structure. The project is named "LeeYi-user fix content". The files and folders are listed with their corresponding commit messages.

File/Folder	Commit Message
.vscode	Initial commit
components	change border
islands	Revert "add max-age"
routes	fix content
static	change content
.env.example	first commit
.gitattributes	Initial commit
.gitignore	first commit
LICENSE	first commit
README.md	Initial commit
deno.json	Initial commit
dev.ts	Initial commit
fresh.gen.ts	remake click counter
github.ts	first commit
import_map.json	first commit
main.ts	Initial commit
twind.config.ts	Initial commit

李易的程式文章

LeeYi's programming article

李易的練習版網站，程式文章又多又長……

LeeYi's practice version website,
program articles are long and numerous...

所以僅編輯截取文章的片段，謹供學弟妹們免費參考。

So only edit the clip of the article,
and I would like to give the students and siblings to
reference for free.

李易的練習版網站

LeeYi's practice version website

著作人 李易 2023 年
The author LeeYi in 2023

2009 年，李易於金湖幼稚園，愛上了電腦。
李易的老爸，是個負責任的爸爸。再窮也要買台最便宜的電腦，送給李易當玩具。
李易的老爸，從電腦中的小畫家，為李易手繪了鍵盤，讓李易看了很驚喜！

In 2009, LeeYi fell in love with the computer in Jinhu Kindergarten.
LeeYi's dad is a responsible father. No matter how poor he is, he still bought the cheapest computer as toy and give LeeYi.
LeeYi's dad use the Paint from the computer to paint the keyboard for LeeYi, and surprised him!
